<p><b><u>Musicians</u></b></p> <p>Webster's Dictionary defines a disability as a "disqualification, restriction or disadvantage." Most people with disabilities would vehemently disagree with this definition and say that their disability isn't a disadvantage in anything they do. These musicians with disabilities would agree, as well, and say that their disabilities have not stopped them from making great or small contributions to the world of music.</p> <p><b>Musicians with Visible Disabilities</b> Rick Allen has been the drummer for Def Leppard since late 1978. While driving home from a party on New Year's Eve 1984, Allen flipped his car and severed his left arm. Doctors successfully reattached the arm, only to be forced to fully amputate again due to an infection. Allen feared that his drumming career was over until he and the lead singer of the band met with engineers and a drum manufacturer and had a drum kit specifically built for a one-armed drummer. Less than two years after the accident, Allen returned to the stage with Def Leppard and continues to tour with them today.</p> <p><b>Musicians with Invisible Disabilities</b> Kenneth Gorelick, better known as Kenny G, is arguably the greatest saxophone player of our time and an asthmatic. Asthma is an inflammatory disease of the airways that causes wheezing, shortness of breath, coughing and tightness of the chest. Once rejected from the University of Washington's music program, Kenny G went on to become a Grammy-winning saxophonist who made jazz accessible to millions. He is the 25th best-selling recording artist in America and, until last month, held the world record for holding a musical note the longest – 45 minutes and 47 seconds. Both Michael Bolton and Phil Collins suffer from tinnitus, or profound hearing loss, in one ear. Cher suffers from dyslexia. Tommy Iommi, founder of Black Sabbath, plays guitar with several amputated fingers and Edgar Winters, legendary blues man, lives with albinism, a severe sensitivity to light. These musicians embody the idea that if your passion is strong enough, nothing can keep you from your dreams.</p>
